

SARVESH SAWARDEKAR

Product Designer | UI/UX Designer

Dubai, UAE | Available Onsite in Abu Dhabi & Dubai, UAE
+971 50 495 1825 | sawardekarsarvesh@gmail.com | linkedin.com/in/sarvesh-sawardekar | www.uxsarvesh.in

PROFESSIONAL SUMMARY

Product Designer with 8+ years of experience leading end-to-end UX/UI design for complex, data-dense digital products across enterprise banking, UAE government services (TAMM), fintech, and insurance. Strong expertise in Figma, covering wireframing, high-fidelity UI, interactive prototyping, and scalable design systems. Proven track record translating complex business and technical requirements into intuitive, user-centric digital experiences, from discovery through developer handoff and post-launch design QA. Experienced collaborating closely with Product Managers, Business Analysts, and Developers to deliver pixel-perfect, production-ready products.

CORE SKILLS

- Product Design: End-to-End UX/UI Design, User-Centered Design, Design Thinking, Product Design Methodologies
- Research & Validation: User Research, User Interviews, Usability Testing, Design Validation
- Design Process: Information Architecture, User Flows, Wireframing, High-Fidelity UI, Interactive Prototyping
- Design Systems: Figma Libraries, Reusable Components, UI Patterns, Design Tokens, Responsive Design (Web & Mobile)
- Collaboration: Stakeholder Workshops, Product Managers, Business Analysts, Developers, Cross-Functional Teams
- Delivery: Design Specifications, Developer Handoff, Design QA, Implementation Review, Iterative Design
- Tools: Figma, FigJam, Adobe XD, Sketch, Adobe Photoshop, Illustrator, UXPin

PROFESSIONAL EXPERIENCE

Birbal AI UAE — Abu Dhabi, UAE May 2026 – Present
UI/UX Designer

Client: Family Development Foundation (FDF) — Abu Dhabi TAMM Government Ecosystem

- Lead UX/UI design for citizen-facing digital services on Abu Dhabi's TAMM platform, covering discovery through interactive prototypes and developer handoff.
- Translate complex business requirements and service blueprints into intuitive citizen journeys and scalable interface patterns.
- Simplify multi-step government workflows by improving information architecture, navigation, and content hierarchy.
- Conduct structured stakeholder workshops to gather requirements, identify user pain points, and validate proposed solutions.
- Design responsive, mobile-first, bilingual Arabic/English (RTL/LTR) interfaces with accessibility in mind.
- Build reusable Figma components and define interaction states, validation states, and edge cases for engineering handoff.
- Review implemented interfaces against approved designs, identifying UX/UI gaps and implementation deviations.
- Use AI-assisted design workflows (Claude, ChatGPT, Figma MCP) to accelerate concept exploration and iteration.

Intellect Design Arena Ltd. — Dubai, UAE Jan 2024 – Dec 2025
UI/UX Design Lead

Enterprise Banking & FinTech: National Bank of Fujairah, National Bank of Kuwait, ADIB, ANZ Bank, Riyad Bank

- Led end-to-end product design across five concurrent enterprise banking and fintech products, from discovery to implementation review.
- Designed complex transactional workflows, approval journeys, dashboards, and multi-step banking processes.
- Built and scaled a Figma-based enterprise design system, reducing design iteration time by 30%.
- Created high-fidelity interactive prototypes for complex multi-screen workflows, reducing stakeholder approval rework by 40%.
- Delivered 150+ production-ready screens, wireframes, and interactive prototypes across rapid product-development cycles.
- Designed and documented interaction states (hover, focus, loading, empty, error, validation, success) across transactional workflows.
- Designed Arabic/English RTL interfaces for GCC banking products while maintaining accessibility and responsiveness.
- Partnered continuously with Product Managers, Business Analysts, and Developers; conducted design QA and implementation reviews.
- Received a Spot Award for Excellence for delivering high-quality UX iterations under tight timelines.

Clover Infotech — India

Senior UI/UX Designer

Apr 2023 – Jan 2024

Client: ICICI Lombard

- Owned end-to-end UX/UI design for consumer-facing insurance products across iOS, Android, and web.
- Simplified complex insurance journeys into clear, intuitive multi-step experiences with defined interaction states.
- Collaborated with Product Managers, Developers, and business stakeholders to identify usability issues and validate solutions.

ImpactGuru — India

UI/UX Designer

Aug 2021 – Apr 2023

- Established UX direction across three digital products; conducted user research and usability testing.
- Designed user flows, wireframes, high-fidelity UI, and interactive prototypes; built reusable component libraries.
- Collaborated with product and engineering teams to translate requirements into production-ready designs.

Fluidscapes Consultants Pvt. Ltd. — India

UI/UX Designer

Dec 2019 – Jul 2021

- Designed responsive websites, campaign experiences, and data-driven dashboards for business stakeholders.
- Translated business and marketing requirements into user-centered, high-fidelity digital experiences.

Powerweave Software Solutions — India

UI/UX Designer

Jun 2018 – Oct 2019

- Designed digital experiences for international clients, including wireframes, high-fidelity UI, and prototypes.
- Established reusable interaction patterns and visual design foundations for production-ready interfaces.

SELECTED FREELANCE PRODUCT DESIGN PROJECTS

- **HalaPark 2.0 (Parking & Mobility Platform):** End-to-end UX/UI redesign — audited the existing experience, reworked information architecture, and built a scalable Figma design system covering navigation, booking, and payment components.
- **Aura Gold (Digital Gold Investment Platform):** Designed a mobile fintech experience for gold buying, selling, and micro-savings, with dashboards and transactional flows built for clarity and trust.
- **Margin Clash (Crypto/Trading Gaming Platform):** Designed end-to-end trading dashboards, market views, and a comprehensive design system for a data-heavy web and mobile product.

TECHNICAL SKILLS

- **Design:** Figma, Figma Variables, Auto Layout, FigJam, Adobe XD, Sketch, UXPin
- **Product Design:** User Research, Usability Testing, Information Architecture, User Flows, Wireframing, Prototyping, Responsive & Mobile-First Design
- **Design Systems:** Design Tokens, Components, Variants, Pattern Libraries, Accessibility (WCAG)
- **Engineering Collaboration:** Design Handoff, Design Specifications, Design QA, HTML, CSS, React, Next.js
- **AI Tools:** Claude, ChatGPT, Figma MCP, AI-Assisted Prototyping
- **Collaboration:** Jira, Confluence, Notion, Miro, Zeplin

EDUCATION

Google UX Design Professional Certificate — Google / Coursera | 2022–2023

Diploma in Computer Engineering — Vidyalkar Polytechnic | 2013–2016

CERTIFICATIONS & RECOGNITION

- Google UX Design Professional Certificate — Google / Coursera
- Spot Award for Excellence — Intellect Design Arena Ltd.
